

My Beer Rating System

10	Outstanding - lots of character, complex, likely aged, you can't stop talking about it
9	Awesome - complex, interesting, makes you want more right away, high cellar potential
8	Excellent - interesting, well executed, something as a beer geek I would buy again
7	Very Good - well executed beer, but not quite good enough to buy again immediately
6	Above Average - tastes pretty good, drinkable, but not much else going on here
5	Average - tastes like every other craft beer, drinkable but thats it
4	Below Average - not overly drinkable, either not much or too much going on to be good
3	Not Very Good - poorly executed, you might finish this because you hate wasting beer
2	Terrible - something you try and won't bother finishing, but maybe will cook with it
1	Awful - so bad you won't even cook with it, or the beer is skunked, or both.
